05	Wen.23.10.19 Meeting Point Le Lokal 09:00 am	El Jadida	<p>All day in El Jadida : The Portuguese fortification of Mazagan, now El Jadida, was built as a fortified colony on the Atlantic coast in the early 16th century. It was taken over by the Moroccans in 1769. The fortification with its bastions and ramparts is an early example of Renaissance military design. The surviving Portuguese buildings include the cistern and the Church of the Assumption, built in the Manueline style of late Gothic architecture. The Portuguese City of Mazagan - one of the early settlements of the Portuguese explorers in West Africa on the route to India - is an outstanding example of the interchange of influences between European and Moroccan cultures, well reflected in architecture, technology, and town planning. The enlargement made by Portuguese was directed by Benedetto da Ravenna, architect, serving the King of Spain, but temporarily landed to Portugal.</p> <p>Afternoon: WORKSHOP El Jadida: Proramme see Mini-Workshop 1</p> <p>An association of inhabitants, the founder (Brahim El Kalii) to brief us on way of living inside the quarter + Mustapha Jmahri, journalist who published several small books on the recent history of El Jadida, mixing colonial time information coming from the different communities</p> <p>Meet: Representative of Ministry of Culture in El Jadida, Cultural association Morocco-Lusitana, "CitePortugaise" etc</p>	Walking	El Jadida: 1.
