

SBH Newsletter 2020 n°2– October

Dear members of Shared Built Heritage,
colleagues and friends,

The board hopes you are all well. Corona still has us under control and determines our lives. We all hope for the vaccine that will save us and the return of our normal lives!

In the past 6 months, thanks to your active cooperation, we have succeeded in clarifying the member question of ISC SBH through the member survey. It is very important to the board to make the result and the upcoming procedure of the election process for the new board transparent to you! .

Results of the Members' Survey

59 members from 26 countries responded and confirmed their further participation in the committee. (see attachment)

Of these, 50 were identified as Expert Members, 7 have the status of Associated Member, 2 of which are "national ICOMOS members" and 2 members were invited because they are not yet ICOMOS members in their national committees. (invited members)

Total member	59
Expert Member	50
Associated Member	7
Invited Member	2
total	59
Voting Member	23
Non-voting member	27
total	51

New Board Election:

Now that the last NatCom has nominated its voting member, 23 of the 50 Expert Members have been identified as voting members. The member who come from a NatCom that only has 1 member on our committee automatically became voting members. The relevant NatComs were informed about this and some of them subsequently confirmed their members as voting members. (This applies to Belgium, France, Indonesia, Korea (R.of), Nigeria, Philippines, Russia, Saudi Arabia, Switzerland, Thailand, Turkey, USA). The NatComs, which have several members on our committee, have been asked to name their voting member and have done so (This applies to: Australia, Canada, China, Finland, Germany, India, Korea (R.of), Malaysia, Morocco, Netherlands, Portugal, Spain).

ICOMOS INTERNATIONAL SCIENTIFIC COMMITTEE ON SHARED BUILT HERITAGE

After the application for the candidacy for the new board was called in the last newsletter, fortunately some candidates have already applied for the new board in the meantime. However, we will extend the

Call for Candidacy
until
October 31, 2020.

Then all members will be provided with the application documents and with the respective election program of the candidates for a careful study. This gives the 27 non-voting members the opportunity to vote with their respective voting member on the election.

The actual election (sending the ballot papers, collecting and counting and announcing the election results) will then be carried out by an outside ICOMOS member, a representative of ICLAFI. Mr. Nitin Sinha kindly agreed to take over this job. A mailbox for the election will be established by ICOMOS with password access limited to ICLAFI representatives and the ICOMOS Secretariat. When nominations close after two weeks, an email ballot will be drawn up and sent to all Voting Expert Members of SBH. Voting members will have two weeks to return their ballots to the ICOMOS mailbox. ICLAFI will count the votes, which will be verified by the Secretariat, and the results announced.

This should take place until November 30th. We then hope that with your help we can welcome a new board for the ISC SBH on December 1st, 2020.

We hope that you continue to be well and send best regards from

Darmstadt, Sydney and Ottawa
for the Board

Sincerely yours

Dr. Siegfried RCT Enders,
President,
ICOMOS International Scientific Committee on Shared Built Heritage

Darmstadt, 15.10.2020
