

WG 6 – ISCSBH Website

A website is one of the public faces of any ISC. We are therefore in the process of creating a new website that can be more easily updated, is more versatile and can be used on various mobile devices. We believe having an accessible website will allow us to share information more easily on our perspectives and initiatives, and your help would be greatly appreciated! Please email us if you would like to assist: (mjf@aetecnet.com or mariana_pereira@msn.com)
